W. 9/1/42

Serial No

Letter No C 3602/41 dated 9 12 41 from the R C to Mysore recommending in the circumstances stated therein as a special case the construction of two wells in the Narasimharaya apura Agrahara Hobli at an estimated Cost of Rs 760/- to be met out of the Rural water supply funds or T D grants

Secy The Rev Commr's letter is self explanatory The proposal of the Rev Commr to sink two wells in the Narasimharaya apura Agrahara Hobli for the Adi Dr of Rahamadana out of the Rural water supply funds does not appear to be a feasible one Rural water supply funds are meant for sinking wells in the Rural Areas of the funds cannot be diverted for the use of house properties

The R C recommends the D C's proposal of requesting Government as a special case to permit the D C Kadur Dt to take up the construction of the two wells at an estimated Cost of Rs 760/- ~~the Cost thereof~~ to be met out of the Rural water supply funds ~~of~~ or T D grants ~~to Communal Purposes~~

Submitted for orders

Dy Secy 13/12/41 A grant of Rs 380/- may be given out of T D Grants

Secy 13/12 It is strange that though the Govt have been paying grants to Municipalities for supply of water supply thereof out of the Famine

~~in the State Budget~~ provision made ~~for~~ under water supply to Towns in ~~the~~ each year, neither the Revenue nor the Rural Development have thought fit to ask for a grant from that provision when there is a separate head of account and provision. It is not clear why the Rural water supply funds should be diverted for the purpose of sinking wells in Municipalities

Narasimharajapura is a Town Municipality its financial condition is very unsatisfactory In the circumstances reported, a grant of Rs 760/- may be given to the Municipal Town for sinking two wells for the Submersible and the Hemavathy, out of the reserve of Rs 41,035/- available under Water supply grants during the current year

SIR

Subject -- Grant to the Narasimarajapura Minor Municipality, Kadur District from Rural Water Supply Funds towards wells intended for the Adikatnatakas and the Mahamadans

---C---

1 No A5-P R 202/40-41 dated 19-12-1940	
2 No A3-C 2232/40-41 dated 14-8-1941	
3 No A3-C 2232/40-41 dated 9-9-1941	

I have the honour to forward herewith copies of the marginally noted letters received from the Deputy Commissioner, Kadur District on the above subject. It is reported that the Narasimharajapura Minor Municipality has been considering the question of providing good drinking water wells in the Adikarnataka Colony and the Mohamadam Mohalla for the last few years but have not been able to find funds for the same It is further report d that the limits of the Town have been recently fixed and to prevent octroi smuggling a number of scattered bits of several villages have b en added on to the Town Keeping these bordering portions in a sanitary condition and the provision of sev eral other amenities by the Municipality have practically exhausted all the financial resources of the Municipality, with the result that they have not been able to find any funds for the purpose of the drinking water wells in the Adikarnataka Colony and the Mahomedan Mohalla At a meeting held on 30-9-1940 they have resolved that Government may be requested to undertake the construction of these two wells The Deputy Commissioner in recommending their prayer points out that though as a general rule no portion of the Rural Water Supply funds should be used for Municipalities, taking into consideration the very limited resources of the Minor Municipalities and the requirements of special communities, an exception may be made in the present case He further points out that such a concession is particularly

particularly necessary in the case of a place like Narasimharaja-pura which is situated in the heart of the alnad In the circumstances, the Deputy Commissioner requests that he may be permitted to take up the construction of the two wells entirely out of Rural Water Supply Funds

The resources of the Municipality are meagre and it has only Rs 583-9-11 in invested funds In the circumstances, I am of opinion that this may be treated as a special case and half the cost of the two wells may be met from either the Rural Water Supply fund or the Town Improvement grant The total cost of the wells is stated to be about Rs 760 I request you to kindly move Government to sanction half the cost being met from Government sources

I have the honour to be,
Sir,
Your most obedient servant,
Revenue Commissioner

RC

Subject --Sanction of Rural Water Supply grant to Narasimharajapura minor Municipality

---

1)Letter No A3-P R 202/40-41 dated 19th December 1940 from the Deputy Commissioner, Kadur District to the Revenue Commissioner in Mysore

--

I have the honour to state that scarcity for good drinking water is very keenly felt in the minor Municipality of Narasimharajapura town The town is located on the main road and comprises of portions of several villages The limits of the Town were very recently fixed and a number of scattered bits of several village Panchayets was added on to the Town to avoid ~~x~~ octroi smuggling and to keep these bordering portions in sanitary condition The finances of the Municipality are very unsatisfactory and the Government have been assisting the Municipality in several modes But, the Municipality is not in a position to meet the several amenities of the public satisfactorily The Municipal Council have at present taken up the improvements to the drainage of the Town removing of rank vegetation situated in important localities and converting the places into public works, improvements to the shandy maidan and several other works They have also improved a ~~xxx~~ number of draw wells located in different portions of the ~~xxxxxx~~ town

2 The question of providing good drinking water wells in the Adikarnataka Colony of the Town and the Mohemedan Mohalla, where there are no good wells at present has been engaging the consideration of the Municipal Council for the last few years But the Municipal Council has not been able to meet these requirements satisfactorily They have resolved on 30-9-1940 that the Government may be requested to undertake the construction of two wells one in the Adikarnataka and the other in the Mahomedan colony out of Rural Water Supply grant No doubt the question of utilising any portion of the Rural water supply Fund to Municipalities is not contemplated in the scheme But in view of the very limited resources of the minor Municipalities and requirements of special communities an exception has been made where Government have permitted the use of the funds for providing drinking water wells to Adikarnatakas, Lambanis and others Extension of such a concession in an area situated in the heart of Malnad, appears to be more necessary in view of the

the great scarcity of water, due to traditions of Gosha disabilities felt by those, who cannot use other wells

In this connection, I wish to state that the Municipal Council represented the matter to the Second Member of Council and the Revenue Commissioner during their recent visits to the Town and they were pleased to direct that the matter may be sympathetically considered and recommended, if there were special reasons for the same In these circumstances, I request you to kindly permit me to take up the construction of the two wells referred to above, entirely out of Rural Water Supply Grants as a special case

The favour of early orders is requested

---

2)Letter No A3-C 2232/40-41 dated 14th August 1941 from the Deputy Commissioner, Kadur District to the Revenue Commissioner in Mysore

--

With reference to your letter No C 3602/40-41 dated 27/28th May 1941 on the above subject, I have the honour to state that the cost of the two wells has been estimated at Rs 760/- As regards the public donations for the works, the President, Municipal Council has reported that there is nobody in the place who is able to give any donations The financial condition of the Municipality continues to be unsatisfactory The statement enclosed in the records reveals the position of the Municipality There is a balance of Rs 646-4-1 at its credit and the Municipal Council have to provide a sum of Rs 3500/- for Town Improvement works for which grants have already been sanctioned Considering the slender finances of the Municipality, I request that permission may kindly be granted for taking up the construction of the wells entirely out of the Rural Water Supply Grants The records received from the President accompany
